

Assisted Living Capabilities List

'Assisted Living' usually refers to the provision and support of health-related services in a variety of community home-like settings. This tool is also intended for other residential health care facilities including those listed by the National Center for Assisted Living (www.ahcancal.org/ncal).

This list is for hospital emergency rooms, hospitalists, and case managers; and for physicians, NPs, and PAs to assist with decisions about hospital admission or return to the assisted living.
